The Pininfarina Book Günther Raupp 2015-03 What is innovation? The dictionary defines it as "renewal through the use of new processes and technologies." In advertising, everything is an innovation. But what is truly innovative? Since 1930, the Pininfarina design firm of Turin, Italy, has been answering that question. This is where the Cistalia 202 was developed, the first vehicle to be added to MoMA's permanent collection. The list goes on: the interior of the new stadium for Juventus Turin, the Nash Healey Spider seen in Billy Wilder's *Sabrina*, and the legendary Ferrari Dino 246 and Ferrari Testarossa. However, Pininfarina is not resting on its laurels, but blasting full speed ahead into the future with an expanded portfolio while honoring its heritage. Whether it's a solution for sustainable mobility, interior designs, or household gadgets, all Pininfarina projects bear an unmistakable signature. To visually celebrate the history and influence of Pininfarina, there is no one better suited than a man who has made his own unmistakable mark on automotive photography. Günther Raupp has spent 30 years photographing cars for Ferrari's official calendars, which enjoy a cult following among the experts. He has two successful books with teNeues, the most recent being *The Ferrari Book*. As a star photographer and connoisseur of industrial design, Raupp showcases a company that embodies true Italianità.

Auto Repair For Dummies Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Love to the Uttermost John Piper 2014-03-14 Jesus willingly endured unimaginable depths of suffering for his friends. John 13:1 says he loved us to the uttermost. To love to the uttermost is to love freely, without reserve or limit, and without flaw or failure. As we journey with Jesus for eight days--from Palm Sunday to Easter Sunday--from triumphal entry, to arrest and trial, to death and burial and triumphant resurrection, we gaze on a God-man who begrudges no pain or reproach on his pathway to redeem lost sinners. Here is the one who "humbled himself by becoming obedient to the point of death, even death on a cross" (Philippians 2:8). In Love to the Uttermost: Devotional Readings for Holy Week, John Piper calls you to fix your eyes steadily on Jesus as he loves you to the uttermost.
