Better Britons Nadine Attewell 2014-02-05 In 1932, Aldous Huxley published *Brave New World*, his famous novel about a future in which humans are produced to spec in laboratories. Around the same time, Australian legislators announced an ambitious experiment to "breed the colour" out of Australia by procuring white husbands for women of white and indigenous descent. In this study, Nadine Attewell reflects on an assumption central to these and other policy initiatives and cultural texts from twentieth-century Britain, Australia, and New Zealand: that the fortunes of the nation depend on controlling the reproductive choices of citizen-subjects. *Better Britons* charts an innovative approach to the politics of

reproduction by reading an array of works and discourses – from canonical modernist novels and speculative fictions to government memoranda and public debates – that reflect on the significance of reproductive behaviours for civic, national, and racial identities. Bringing insights from feminist and queer theory into dialogue with work in indigenous studies, Attewell sheds new light on changing conceptions of British and settler identity during the era of decolonization.

The Gold Thread William Raeper 2015-11-03 Both children's literature and fantasy literature have become established as genre for critical study in recent years, especially in the United States. As one of the outstanding children's authors of the nineteenth century and a pioneer of fantasy writing, MacDonald has become the focus of increased attention. As an acknowledged influence on many authors who came after him--authors such as E. Nesbit, G. K. Chesterton, C. S. Lewis, W. H. Auden, and T. S. Eliot--MacDonald is one of the rare writers whose work is a starting point for evaluating the achievements of others. New forms of critical theory--Jungian, psychoanalytic, and feminist--turning towards the exploration of sexuality and the fantastic have also found fitting subjects in MacDonald's texts. This volume studies these developments and also the growing acknowledgment that MacDonald was a Scottish writer and a Victorian. His enduring works have been his children's books *At the Back of the North Wind*, *The Princess and the Goblin*, *The Princess and Curdie*, and the fairy tales of *The Golden Key*. His two adult fantasy novels, *Phantasties* and *Lilith*, are now recognized as classics of their kind.

Racial Ambiguity in Asian American Culture Jennifer Ann Ho 2015-05-12 The sheer diversity of the Asian American populace makes them an ambiguous racial category. Indeed, the 2010 U.S. Census lists twenty-four Asian-ethnic groups, lumping together under one heading people with dramatically different historical backgrounds and cultures. In *Racial Ambiguity in Asian American Culture*, Jennifer Ann Ho shines a light on the hybrid and indeterminate aspects of race, revealing ambiguity to be paramount to a more nuanced understanding both of race and of what it means to be Asian American. Exploring a variety of subjects and cultural artifacts, Ho reveals how Asian American subjects evince a deep racial ambiguity that unmoors the concept of race from any fixed or finite understanding. For example, the book examines the racial ambiguity of Japanese American nisei Yoshiko Nakamura deLeon, who during World War II underwent an abrupt transition from being an enemy alien to an assimilating American, via the Mixed Marriage Policy of 1942. It looks at the blogs of Korean, Taiwanese, and Vietnamese Americans who were adopted as children by white American families and have conflicted feelings about their "honorary white" status. And it discusses Tiger Woods, the most famous mixed-race Asian American, whose description of himself as "Cablinasian"—reflecting his background as Black, Asian, Caucasian, and Native American—perfectly captures the ambiguity of racial classifications. Race is an abstraction that we treat as concrete, a construct that reflects only our desires, fears, and anxieties. Jennifer Ho demonstrates in *Racial Ambiguity in Asian American Culture* that seeing race as ambiguous puts us one step closer to a potential antidote to racism.

Contemporary Christianity and LGBT Sexualities Stephen Hunt 2016-05-13 The

subject of gay and lesbian sexuality is perhaps the most vexed issue in the contemporary Christian Church. Many churches have been forced to confront the matter, both theologically and pastorally and in consequence, controversies have proved divisive within the Church, most notably between conservative and liberal orientated denominations, as well as evangelical churches. This book explores these themes from a sociological perspective, addressing not only gay and lesbian sexualities, but also bi- and transgendered sexualities. With rich empirical material being presented by a team of experts, this book constitutes the first comprehensive sociological study of 'non-hetero' sexualities in relation to contemporary Christianity. As such, it will appeal to sociologists, scholars of religion and theology as well as readers across a range of social sciences
