The Food Medic Hazel Wallace 2017-05-04 Junior Doctor, personal trainer and Instagram hit Dr Hazel Wallace's first book brings you over 70 nutritional recipes to look and feel amazing whilst debunking the diet myths. 'I'm a girl who juggles two jobs, who loves to lift, who adores real food - and can't resist chocolate. As a junior doctor and a personal trainer, I know that we all feel our best when we are free of illness, full of energy and at a healthy weight - and I know it can be done, even if you lead the busiest of lives! I want to debunk the myths that are out there surrounding dieting and instead offer solid, evidence-based advice. I want to bridge the gap between mainstream medicine and nutrition and help you take full control of your fitness and wellbeing, so you will never have to diet again. I want to show you that eating the most natural, unrefined and unprocessed wholefood ingredients can be enjoyable, uncomplicated and easy to incorporate into a busy lifestyle. I want this book to change your life.' Hazel x

The Scottish Mountaineering Club Journal, 1897, Vol. 4 (Classic Reprint) William Douglas 2018-10-10 Excerpt from The Scottish Mountaineering Club Journal, 1897, Vol. 4 They exhibit very little variety, being almost wholly covered with dark heath, and even that seems to be checked in its growth. What is not heath is nakedness, a little diversified by now and then a stream rushing down the steep. An eye accustomed to ?owery pastures and waving harvests is astonished and repelled by this wide extent Of hopeless sterility. T be appearance is t/zat of matter in capable of form or usefulness, dismissed by Nature from her care, and disinherited of her favours, left in its original elemental state, or quickened only with one sullen power of useless vegetation. The idea of Suilven and other mountains of the west being incapable of form is exquisite and the holding up of ?owery pastures and waving harvests as the only kind of scenery to be admired, presents an exact parallel to the sentiment of my friend, the West Highland sea captain. Quoted in my first address as President, who could under stand people admiring the beauty of Greenock or Gourrock. With their trim villas and straight paths, but could see nothing to admire on Loch Pyne - where there was nothing but rocks and woods, and the like 0' that. Author in Chief Craig Fehrman 2020-02-11 "One of the best books on the American presidency to appear in recent years." -Thomas Mallon, The Wall Street Journal "Fun and fascinating...It's witty, charming, and

fantastically learned. I loved it." -Rick Perlstein Based on a decade of research and reporting, Author in Chief tells the story of America's presidents as authors—and offers a delightful new window into the public and private lives of our highest leaders. Most Americans are familiar with Abraham Lincoln's famous words in the Gettysburg Address and the Emancipation Proclamation. Yet few can name the work that helped him win the presidency: his published collection of speeches entitled Political Debates between Hon. Abraham Lincoln and Hon. Stephen A. Douglas. Lincoln labored in secret to get his book ready for the 1860 election, tracking down newspaper transcripts, editing them carefully for fairness, and hunting for a printer who would meet his specifications. Political Debates sold fifty thousand copies—the rough equivalent of half a million books in today's market—and it reveals something about Lincoln's presidential ambitions. But it also reveals something about his heart and mind. When voters asked about his beliefs, Lincoln liked to point them to his book. In Craig Fehrman's groundbreaking work of history, Author in Chief, the story of America's presidents and their books opens a rich new window into presidential biography. From volumes lost to history—Calvin Coolidge's Autobiography, which was one of the most widely discussed titles of 1929—to ones we know and love—Barack Obama's Dreams from My Father, which was very nearly never published—Fehrman unearths countless insights about the presidents through their literary works. Presidential books have made an enormous impact on American history, catapulting their authors to the national stage and even turning key elections. Beginning with Thomas Jefferson's Notes on the State of Virginia, the first presidential book to influence a campaign, and John Adams's Autobiography, the first score-settling presidential memoir, Author in Chief draws on newly uncovered information—including never-before-published letters from Andrew Jackson, John F. Kennedy, and Ronald Reagan—to cast fresh light on the private drives and self-doubts that fueled our nation's leaders. We see Teddy Roosevelt as a vulnerable first-time author, struggling to write the book that would become a classic of American history. We see Reagan painstakingly revising Where's the Rest of Me?, a forgotten memoir in which he sharpened his sunny political image. We see Donald Trump negotiating the deal for The Art of the Deal, the volume that made him synonymous with business savvy. Alongside each of these authors, we also glimpse the everyday Americans who read them. Combining the narrative felicity of a journalist with the rigorous scholarship of a historian, Fehrman delivers a feast for history lovers, book lovers, and everybody curious about a behind-the-scenes look at our presidents.

The Junior Officers' Reading Club Patrick Hennessey 2009-06-25 For the first time in a generation British soldiers are once again fighting at close quarters, coming under sustained and vicious firepower, losing friends in some of the most violent fighting the modern army has endured. Yet the same soldiers also serve on international peacekeeping missions, or counter insurgency. Sometimes they do all three in the same country. The Junior Officers' Reading Club is the story of how one of these soldiers was made, through the testosterone-heavy breeding ground of Sandhurst, into the war-pockmarked, gritty Balkans, out into the nightmare of Iraq and Afghanistan's Helmand Province, pinned down by the Taliban, living only from moment to moment. Written in spare and lucid prose, it describes with alarming vividness not only the frenetic violence of a soldier's life, but the periods of stifling and (sometimes) comic boredom, living inside an institution in a state of flux, an Army caught between a world that needs it and a society that no longer understands it.

How to Practice Academic Medicine and Publish from Developing Countries? Samiran Nundy 2021-10-23 This is an open access book. The book provides an overview of the state of research in developing countries - Africa, Latin America, and Asia (especially India) and why research and publications are important in these regions. It addresses budding but struggling academics in low and middle-income countries. It is written mainly by senior colleagues who have experienced and recognized the challenges with design, documentation, and publication of health research in the developing world. The book includes short chapters providing insight into planning research at the undergraduate or postgraduate level, issues related to research ethics, and conduct of clinical trials. It also serves as a guide towards establishing a research question and research methodology. It covers important concepts such as writing a paper, the submission process, dealing with rejection and revisions, and covers additional topics such as planning lectures and presentations. The book will be useful for graduates, postgraduates, teachers as well as physicians and practitioners all over the developing world who are interested in academic medicine and wish to do medical research.
