The Psychology of Everyday Things _____ Donald A. Norman 1990-05-01

Fast Food Nation Eric Schlosser 2012 Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Interrogation and Torture Steven J. Barela 2020 "This book focuses on the science, law and morality behind interrogational methods. It develops, for the first time, a comprehensive discussion regarding the legality of torture and the efficacy of interrogation. In other words, scientific research has concluded that torture is not effective. This then raises a natural question: What interrogational methods are effective? How does one employ those methods in way that is consistent with law and morality?"--

The Design of Everyday Things _____ Don Norman 2013-11-05 Design doesn't have to be complicated, which is why this guide to human-centered design shows that usability is just as important as aesthetics. Even the smartest among us can feel inept as we fail to figure out which light switch or oven burner to turn on, or whether to push, pull, or slide a door. The fault, argues this ingenious -- even liberating -- book, lies not in ourselves, but in product design that ignores the needs of users and the principles of cognitive psychology. The problems range from ambiguous and hidden controls to arbitrary relationships between controls and functions, coupled with a lack of feedback or other assistance and unreasonable demands on memorization. The Design of Everyday Things shows that good, usable design is possible. The rules are simple: make things visible, exploit natural relationships that couple function and control, and make intelligent use of constraints. The goal: guide the user effortlessly to the right action on the right control at the right time. The Design of Everyday Things is a powerful primer on how -- and why -- some products satisfy customers while others only frustrate them.

Introduction to Forensic DNA Evidence for Criminal Justice Professionals Jane Moira Taupin 2017-07-27 The use of DNA profiling in forensic cases has been considered the most innovative technique in forensic science since fingerprinting, yet for those with limited scientific knowledge, understanding DNA enough to utilize it properly can be a daunting task. Introduction to Forensic DNA Evidence for Criminal Justice Professionals is designed for nons

The Golden Age of Murder Martin Edwards 2015-05-07 Winner of the 2016 EDGAR, AGATHA, MACAVITY and H.R.F.KEATING crime writing awards, this real-life detective story investigates how Agatha Christie and colleagues in a mysterious literary club transformed crime fiction.

Big Sky Kate Atkinson 2019-06-25 INSTANT INTERNATIONAL AND NEW YORK TIMES BESTSELLER Iconoclastic detective Jackson Brodie returns in a triumphant new novel about secrets, sex, and lies Jackson Brodie has relocated to a quiet seaside village in North Yorkshire, in the occasional company of his recalcitrant teenage son and an ageing Labrador, both at the discretion of his ex-partner Julia. It's picturesque, but there's something darker lurking behind the scenes Jackson's current job, gathering proof of an unfaithful husband for a suspicious wife, seems straightforward, but a chance encounter with a desperate man on a crumbling cliff leads him across a sinister network—and back into the path of someone from his past. Old secrets and new lies intersect in this breathtaking new novel, both sharply funny and achingly sad, by one of the most dazzling and surprising writers at work today.

Dead Cert _____ Dick Francis 1998-03-26 Dead Cert is a classic mystery from Dick Francis, one of the greatest thriller writers of all time. 'Admiral met the fence perfectly. He rose to it as if flight were not only for birds. And he fell.' Alan York's friend, jockey Bill Davidson, was killed in Admiral's fall. After the race, York visits the fence and discovers a coil of wire lying beside the fence post and signs of where the wire had been attached. The fall was no accident - but murder. Unable to convince the police of this, York is forced to turn amateur sleuth and is soon on the trail of a ruthless gang of race-fixers operating out of Brighton. Now Alan's caught in a new race: find the gang's leaders before the gang catches up with him . . . Packed with intrigue and hair-raising suspense, Dead Cert is just one of the many blockbuster thrillers from legendary crime writer Dick Francis. Other novels include the huge bestsellers Dead Heat, Under Orders and Silks. The Dick Francis legacy continues through his son Felix Francis: Refusal is his latest novel, following Bloodline and Gamble. Praise for the Dick Francis novels: 'The narrative is brisk and gripping and the background researched with care . . . the entire story is a pleasure to relish' Scotsman 'Dick Francis's fiction has a secret ingredient - his inimitable knack of grabbing the reader's attention on page one and holding it tight until the very end' Sunday Telegraph 'Still the master' Racing Post 'The master of suspense and intrigue' Country Life Dick Francis was one of the most successful post-war National Hunt jockeys. The winner of over 350 races, he was champion jockey in 1953/1954 and rode for HM Queen Elizabeth, the Queen Mother, most famously on Devon Loch in the 1956 Grand National. On his retirement from the saddle, he published his autobiography, The Sport of Queens, before going on to write forty-three bestselling novels, a volume of short stories (Field of 13), and the biography of Lester Piggott. Dick Francis died in February, 2010, at the age of 89, but he remains one of the greatest thriller writers of all time.

The Spider Barry Levine 2020-10-20 Who was Jeffrey Epstein? A Pulitzer Prize-nominated journalist unearths never-before-reported details in the most comprehensive account yet of the disgraced financier's life, death, and criminal web, including the role of Ghislaine Maxwell. An ID Book Club Selection • Featured in the Peacock original documentary series Epstein's Shadow: Ghislaine Maxwell By now, the basic contours of Jeffrey Epstein's horrendous crimes—his decades-long serial abuse of young women and underage girls—are familiar. But for all that has been written about Epstein since his shocking death in a lower Manhattan jail cell, an astonishing amount remains unknown. A shy Brooklyn kid turned renegade financier, Jeffrey Epstein never wanted to play by the rules of polite society. He was elusive in life and he has remained just as elusive in death. What is known is that he had amassed nearly \$600 million by the time of his death. That fortune allowed Epstein to pursue a privileged, secretive life, jetting between his fortress-like homes in Manhattan, New Mexico, and Little St. James, his private island. Behind these closed doors, Epstein socialized with scientists and world leaders and preyed on powerless young women. In The Spider, Barry Levine shines a light into the darkest corners of Epstein's world, including • Epstein's young adulthood and earliest accusations of sexual misconduct • the murky sources of Epstein's fortune and business dealings • Epstein's circle of confidantes and employees, particularly the nature of his long relationship with socialite Ghislaine Maxwell • his ties to powerful men, including Bill Clinton, Prince Andrew, Les Wexner, and Donald Trump • Epstein's last hours as a free man in Paris and the secret operation to arrest him at a New Jersey airport before he could flee • new details on Epstein's final days in jail and the mystery surrounding his death Featuring rare and never-before-seen photographs, The Spider exposes how Epstein operated and evaded justice for so long—and how he drew so many others into his criminal web.

39 Ways to Save the Planet Tom Heap 2021-10-14 We got ourselves into this. Here's how we can get ourselves out. We know the problem: the amount of biodiversity loss, the scale of waste and pollution, the amount of greenhouse gas we pump into the air... it's unsustainable. We have to do something. And we are resourceful, adaptable and smart. We have already devised many ways to reduce climate change - some now proven, others encouraging and craving uptake. Each one is a solution to get behind. In 39 Ways to Save the Planet, Tom Heap reveals some of the real-world solutions to climate change that are happening around the world, right now. From tiny rice seeds and fossil fuel free steel

to grazing elk and carbon-capturing seagrass meadows, each chapter reveals the energy and optimism in those tackling the fundamental problem of our age. Accompanying a major BBC Radio 4 series in collaboration with the Royal Geographical Society, 39 Ways to Save the Planet is a fascinating exploration of our attempt to build a better future, one solution at a time. A roadmap to global action on climate change, it will encourage you to add your own solutions to the list.

The Demolished Man Alfred Bester 2018-01-08 #4 in the Millennium SF Masterworks series, a library of the finest science fiction ever written. The first Hugo Award winner for best novel in 1953. "One of the all-time classics of science fiction."—Isaac Asimov "Bester's two superb books have stood the test of time. For nearly sixty years they've held their place on everybody's list of the ten greatest sf novels" —Robert Silverberg In a world policed by telepaths, Ben Reich plans to commit a crime that hasn't been heard of in 70 years: murder. That's the only option left for Reich, whose company is losing a 10-year death struggle with rival D'Courtney Enterprises. Terrorized in his dreams by The Man With No Face and driven to the edge after D'Courtney refuses a merger offer, Reich murders his rival and bribes a high-ranking telepath to help him cover his tracks. But while police prefect Lincoln Powell knows Reich is guilty, his telepath's knowledge is a far cry from admissible evidence. Alfred Bester was among the first important authors of contemporary science fiction. His passionate novels of worldly adventure, high intellect, and tremendous verve, The Stars My Destination and the Hugo Award winning The Demolished Man, established Bester as a s.f. grandmaster, a reputation that was ratified by the Science Fiction Writers of America shortly before his death. Bester also was an acclaimed journalist for Holiday magazine, a reviewer for the Magazine of Fantasy and Science Fiction and even a writer for Superman.

Postconviction DNA Testing National Commission on the Future of DNA Evidence (National Institute of Justice) 1999 "A report from National Commission on the Future of DNA Evidence"--Cover.

Identifying the Culprit National Research Council 2015-01-16 Eyewitnesses play an important role in criminal cases when they can identify culprits. Estimates suggest that tens of thousands of eyewitnesses make identifications in criminal investigations each year. Research on factors that affect the accuracy of eyewitness identification procedures has given us an increasingly clear picture of how identifications are made, and more importantly, an improved understanding of the principled limits on vision and memory that can lead to failure of identification. Factors such as viewing conditions, duress, elevated emotions, and biases influence the visual perception experience. Perceptual experiences are stored by a system of memory that is highly malleable and continuously evolving, neither retaining nor divulging content in an informational vacuum. As such, the fidelity of our memories to actual events may be compromised by many factors at all stages of processing, from encoding to storage and retrieval. Unknown to the individual, memories are forgotten, reconstructed, updated, and distorted. Complicating the process further, policies governing law enforcement procedures for conducting and recording identifications are not standard, and policies and practices to address the issue of misidentification vary widely. These limitations can produce mistaken identifications with significant consequences. What can we do to make certain that eyewitness identification convicts the guilty and exonerates the innocent? Identifying the Culprit makes the case that better data collection and research on eyewitness identification, new law enforcement training protocols, standardized procedures for administering line-ups, and improvements in the handling of eyewitness identification in court can increase the chances that accurate identifications are made. This report explains the science that has emerged during the past 30 years on eyewitness identifications and identifies best practices in eyewitness procedures for the law enforcement community and in the presentation of eyewitness evidence in the courtroom. In order to continue the advancement of eyewitness identification research, the report recommends a focused research agenda. Identifying the Culprit will be an essential resource to assist the law enforcement and legal communities as they seek to understand the value and the limitations of eyewitness identification and make improvements to procedures.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

When Doctors Kill Joshua A. Perper 2010-06-14 It would come as no surprise that many readers may be shocked and intrigued by the title of our book. Some (especially our medical colleagues) may wonder why it is even worthwhile to raise the issue of killing by doctors. Killing is clearly unethical to the Art and Science of Medicine, which is geared toward easing pain and suffering and to saving lives rather than smothering them. Doctors should be a source of comfort rather than a cause for alarm. Nevertheless, although they often don't want to admit it, doctors are people too. Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people. In most cases, fortunately, the positive traits are dominant and doctors do more good than harm. While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom, they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet. Concurrently, doctors and allied scientists have delved into the deep secrets of the body and mind, mastering the anatomy and physiology of the human body, even mapping the very molecules that make us who we are. But make no mistake, a person is not simply an elegant biological machine to be marveled at then dissected.

The Darkest Place Jo Spain 2018-09-20 From the bestselling author of *With Our Blessing* and *The Confession* comes a gripping and chilling new mystery 'Horrifyingly dark . . . a deeply satisfying read' Sunday Times Christmas day, and DCI Tom Reynolds receives an alarming call. A mass grave has been discovered on Oileán na Cailte, the island which housed the controversial psychiatric institution St. Christina's. The hospital has been closed for decades and onsite graves were tragically common. Reynolds thinks his adversarial boss is handing him a cold case to sideline him. But then it transpires another body has been discovered amongst the dead - one of the doctors who went missing from the hospital in mysterious circumstances forty years ago. He appears to have been brutally murdered. As events take a sudden turn, nothing can prepare Reynolds and his team for what they are about to discover once they arrive on the island . . . 'Deft plotting and expert handling of tension make for an intelligent mystery' Guardian

The Force Don Winslow 2017-06-20 Instant New York Times Bestseller Best of 2017 - included on best-of lists by the New York Times, NPR, Barnes & Noble, Publisher's Weekly, LitHub, BookPage, Booklist, TheRealBookSpy.com, the Financial Times (UK) and the Daily Mail (UK) "The Force is mesmerizing, a triumph. Think *The Godfather*, only with cops. It's that good." — Stephen King The acclaimed, award-winning, bestselling author of *The Cartel*—voted one of the Best Books of the Year by more than sixty publications, including the New York Times—returns with a cinematic epic as explosive, powerful, and unforgettable as *Mystic River* and *The Wire*. Our ends know our beginnings, but the reverse isn't true . . . All Denny Malone wants is to be a good cop. He is "the King of Manhattan North," a highly decorated NYPD detective sergeant and the real leader of "Da Force." Malone and his crew are the smartest, the toughest, the quickest, the bravest, and the baddest, an elite special unit given unrestricted authority to wage war on gangs, drugs and guns. Every day and every night for the eighteen years he's spent on the Job, Malone has served on the front lines, witnessing the hurt, the dead, the victims, the perps. He's done whatever it takes to serve and protect in a city built by ambition and corruption, where no one is clean—including Malone himself. What only a few know is that Denny Malone is dirty: he and his partners have stolen millions of dollars in drugs and cash in the wake of the biggest heroin bust in the city's history. Now Malone is caught in a trap and being squeezed by the Feds, and he must walk the thin line between betraying his brothers and partners, the Job, his family, and the woman he loves, trying to survive, body and soul, while the city teeters on the brink of a racial conflagration that could destroy them all. Based on years of research inside the NYPD, this is the great cop novel of our time and a book only Don Winslow could write: a haunting and heartbreaking story of greed and violence, inequality and race, crime and injustice, retribution and redemption that reveals the seemingly insurmountable tensions between the police and the diverse citizens they serve. A searing portrait of a city and a courageous, heroic, and deeply flawed man who stands at the edge of its abyss, *The Force* is a masterpiece of urban living full of shocking and surprising twists, leavened by flashes of dark humor, a morally complex and utterly riveting dissection of modern American society and the controversial issues confronting and dividing us today.

Three Bags Full Leonie Swann 2010-10-29 A witty philosophical murder mystery with a charming twist: the crack detectives are sheep determined to discover who killed their beloved shepherd. On a hillside near the cozy Irish village of Glennkill, a flock of sheep gathers around their shepherd, George, whose body lies pinned to the ground with a spade. George has cared devotedly for the flock, even reading them books every night. Led by Miss Maple, the smartest sheep in Glennkill (and possibly the world), they set out to find George's killer.

The A-team of investigators includes Othello, the "bad-boy" black ram; Mopple the Whale, a Merino who eats a lot and remembers everything; and Zora, a pensive black-faced ewe with a weakness for abysses. Joined by other members of the richly talented flock, they engage in nightlong discussions about the crime, wild metaphysical speculations, and embark on reconnaissance missions into the village, where they encounter some likely suspects. Along the way, the sheep confront their own all-too-human struggles with guilt, misdeeds, and unrequited love. Funny, fresh, and endearing, it introduces a wonderful new breed of detectives to Canadian readers.
