Amp'd Ken Pisani 2016-05-10 *A LOS ANGELES TIMES BESTSELLER* *A FINALIST FOR THE 2017 THURBER PRIZE FOR AMERICAN HUMOR* Ken Pisani's sharp and hilarious debut novel AMP'D tells the story of a man who returns to his boyhood home after his arm is amputated, forcing the most awkward of family reunions as he struggles to feel whole again and falls in love with a voice on the radio. "Hilarious and heart-breaking." —Jenny Lawson, #1 New York Times bestselling author of *Furiously Happy* "Complete with painfully wry observations and delightfully caustic wit, this novel is a gritty exploration of what it's like to feel incomplete in the world. All five fingers up for this bitterly satisfying tale." —Kirkus Reviews(starred) Aaron is not a man on a hero's journey. In the question of fight or flight, he'll choose flight every time. So when a car accident leaves him suddenly asymmetrical, his left arm amputated, looking on the bright side just isn't something he's equipped to do. Forced to return to his boyhood home to recuperate, Aaron is confronted with an aging father (a former Olympic biathlete turned hoarder), a mother who's chosen to live in a yurt with a fireman twelve years her junior, and a well-meaning sister whose insufferable husband proves love isn't just blind, but also painfully stupid. As Aaron tries to make the world around him disappear in a haze of Vicodin and medical marijuana, the only true joy in his life comes from daily ninety-second radio spots of fun science facts: the speed of falling raindrops, batteries made out of starfish, and sexual responses triggered by ringtones - all told in the lush, disembodied voice of commentator Sunny Lee, with whom he falls helplessly, ridiculously, in love. Aaron's obsession with Sunny only hastens his downward spiral, like pouring accelerant on a fire. Pressured to do something - anything - to move his life forward, he takes the only job he can get. As a "fish counter" at the nearby dam, where he concludes that an act of violent sacrifice to liberate the river might be his best, final option.

Ghettoside Jill Leovy 2015-10-29 THE MULTI-AWARD WINNING INTERNATIONAL BESTSELLER - AS READ ON BBC RADIO 4 Why would you kill your neighbour? Based on the best part of a decade embedded with the homicide units of the LAPD, this groundbreaking work of reportage takes us onto the streets, inside the homes and into the lives of a community wracked by a homicide epidemic. Through the gripping story of one particular murder - of an eighteen-year-old boy named Bryant Tennale, gunned down one evening in spring for no apparent reason - and of its investigation by a brilliant, ferociously driven detective - a blond, surfer-turned-cop named John Skaggs - it reveals the true origins of such violence, explodes the myths surrounding policing and race and shows that the only way to reverse the cycle of violence is with justice.

*Data Conversion Handbook Analog Devices, inc 2005 This comprehensive handbook is a one-stop engineering reference. Covering data converter fundamentals, techniques, applications, and beginning with the basic theoretical elements necessary for a complete understanding of data converters, this reference covers all the latest advances in the field. This text describes in depth the theory behind and the practical design of data conversion circuits as well as describing the different architectures used in A/D and D/A converters. Details are provided on the design of high-speed ADCs, high accuracy DACs and ADCs, and sample-and-hold amplifiers. Also, this reference covers voltage sources and current reference, noise-shaping coding, and sigma-delta converters, and much more. The book's 900-plus pages are packed with design information and application circuits, including guidelines on selecting the most suitable converters for particular applications. You'll find the very latest information on: · Data converter fundamentals, such as key specifications, noise, sampling, and testing · Architectures and processes, including SAR, flash, pipelined, folding, and more · Practical hardware design techniques for mixed-signal systems, such as driving ADCs, buffering DAC outputs, sampling clocks, layout, interfacing, support circuits, and tools. · Data converter applications dealing with precision measurement, data acquisition, audio, display, DDS, software radio and many more. The accompanying CD-ROM provides software tools for testing and analyzing data converters as well as a searchable pdf version of the text. * Brings together a huge amount of information impossible to locate elsewhere. * Many recent advances in converter technology simply aren't covered in any other book. * A must-have design reference for any electronics design engineer or technician.*

Acid Row Minette Walters 2011-05-26 The tension is palpable as Walters takes the spellbound reader to a surprising climax.' MELBOURNE WEEKLY. 'Acid Row' is the name the beleaguered inhabitants give to their housing estate. It is a no-man's land of single mothers and fatherless children-where angry, alienated youth control the streets. Into this battlefield comes Sophie Morrison, a...

Weapons of Mass Seduction Lori Bryant-Woolridge 2007-04-17 Fortysomething and still single, music-video exec Pia Jamison has given up her grandiose ideas on men and marriage but not motherhood. Her biological clock is on red alert, but after years of self-imposed celibacy she has no clue how to attract the man she needs to get the baby she wants. Help comes in the form of Pia's savvy assistant, who tricks her boss into attending, under the guise of a business conference, a flirting workshop called Weapons of Mass Seduction. There Pia meets other women looking to amp up their amorous arsenals, including the devastated Texas belle Florence Chase, who's trying to save her failing marriage; and Rebecca Vossel, a twenty-two-year-old small-town biracial girl who's dying to release her inner diva. What they learn about the art of sensuality and flirtation turns them into bona fide bombshells. The three return home, armed and deliciously dangerous, to spectacular results. Florence reunites with her husband, but the new and improved Flo must now determine if she's staying in her marriage out of happiness or habit. The plain Jane Rebecca has transformed herself into the super-sexed "Becca," but will she realize when she's gone too far? And Pia is happily pregnant but unexpectedly falls in love—not with the father of her unborn child but with a sexy and very conservative candidate for the U.S. Senate. Weapons of Mass Seduction is a fun and sexy book (think of it as a flirting workshop within a

novel) that promises to unleash the sensual woman in you!

The Fender Telecaster A. R. Duchossoir 1991 (Reference). The Fender Telecaster is regarded as the first commercially successful solid body electric 'Spanish' guitar. Designed by Leo Fender at a time when the words rock and roll were not even coined, the 'Telly' is the senior member of a family of instruments whose sounds and looks helped revolutionize the world of popular music. This book relates the story of Telecaster Guitars since 1950 - everything you ever wanted to know is explored through lots of color and black and white photos, charts and interviews.
