[Ask Dr. Mueller](#) Cookie Mueller 1997 Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear Water in a Pool Painted Black and other publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

[But Will the Planet Notice?](#) Gernot Wagner 2011-09-27 You are one of seven billion people on Earth. Whatever you or I do personally—eat tofu in a Hummer or hamburgers in a Prius—the planet doesn't notice.

In our confrontation with climate change, species preservation, and a planet going off the cliff, it is what several billion people do that makes a difference. The solution? It isn't science, politics, or activism. It's smarter economics. The hope of mankind, and indeed of every living thing on the planet, is now in the hands of the dismal science. Fortunately, we've been there before. Economists helped crack the acid rain problem in the 1990's (admittedly with a strong assist from a phalanx of lawyers and activists). Economists have helped get lead out of our gas, and they can explain why lobsters haven't disappeared off the coast of New England but tuna is on the verge of extinction. More disquietingly, they can take the lessons of the financial crisis and model with greater accuracy than anyone else the likelihood of environmental catastrophe, and they can help save us from global warming, if only we let them.

Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

Hav Jan Morris 2011-08-30 A New York Review Books Original Hav is

like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. Here it is joined by *Hav of the Myrmidons*, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

The Figital Revolution Stephen Schaub 2007-09 Are you disillusioned by the current photographic market? Frustrated by the absurd claims of analog and digital proponents alike? Ready to throw in the \*%\$#! towel? Then the Figital Revolution is for you. FIGITAL stands for the dynamic fusion of film and digital photographic technologies. The Figital Revolution transcends self-serving industry hype and old-fart conservatism to get at the real issues photographers face today: how did we get here? Is digital all it's cracked up to be? Why is film on life support? How can photographers create a sustainable art? Why do most photo magazines suck? The Figital Revolution is about all that and more. Remember: movement does not equal progress. Yes comrades- the revolution has begun!

Breathe Belisa Lozano-Vranich 2014-02-14 Using straightforward jargon-free language, BREATHE presents Dr. Belisa's unique approach to breathing exercises. It is a book for people who are looking to address their fatigue, sleeping problems, anxiety, and stress - all of which are worsened by shallow, erratic inefficient breaths and, consequently, suboptimal oxygenation of the body and brain at a cellular level. In addition, the exercises and theory taught in BREATHE will result in better endurance in sports. You'll be taking care of yourself from the inside out. Dr. Belisa's method teaches you to relearn or remember how you used to breathe rather than teach you a skill requiring the attention and motivation that it takes to acquire a new habit. Dr. Belisa asks you put aside ten minutes a day for fourteen days, working from your baseline, and pushing yourself just as you would in a gym or in physical therapy. The result: more energy, less pain, lower cortisol (and control of belly fat), less GI problems, and a better immune system. The explosion of technology, longer hours spent seated at a desk or car, and high levels of daily stress everyone accepts as normal have had a tremendous effect on the way people breathe. This in turn has created or exacerbated medical problems such as high blood pressure, irritable bowel, and insomnia. BREATHE is a primer that covers all the critical core issues related to oxygen, your lungs, and your breathing patterns. It teaches you how to breathe in an anatomically congruous way that maximizes inhaled and exhaled, lung expansion, and ribcage flexibility. Finally, BREATHE is perfect for someone wanting to explore concepts of mindfulness and meditation. If you are looking to improve such brain functions as focusing and problem solving, or if you just want to relax and rejuvenate by quickly ridding yourself of oxidative stress of the day, this book is for you.

Borders: A Very Short Introduction Alexander C. Diener 2012-08-06

Compelling and accessible, this Very Short Introduction challenges the perception of borders as passive lines on a map, revealing them instead to be integral forces in the economic, social, political, and environmental processes that shape our lives. Highlighting the historical development and continued relevance of borders, Alexander Diener and Joshua Hagen offer a powerful counterpoint to the idea of an imminent borderless world, underscoring the impact borders have on a range of issues, such as economic development, inter- and intra-state conflict, global terrorism, migration, nationalism, international law, environmental sustainability, and natural resource management. Diener and Hagen demonstrate how and why borders have been, are currently, and will undoubtedly remain hot topics across the social sciences and in the global headlines for years to come. This

compact volume will appeal to a broad, interdisciplinary audience of scholars and students, including geographers, political scientists, anthropologists, sociologists, historians, international relations and law experts, as well as lay readers interested in understanding current events.

Ming Tea Murder Laura Childs 2015-05-05 It's scones and scandal for Indigo Tea Shop owner Theodosia Browning in the latest from the New York Times bestselling author of *Steeped in Evil...* Normally Theodosia wouldn't attend a black tie affair for all the tea in China. But she can hardly say no to her hunky, handsome boyfriend, Max, who directs public relations for the Gibbes Museum in Charleston. Max has organized an amazing gala opening for an exhibit of a genuine eighteenth century Chinese teahouse, and the crème de la crème of Charleston society is invited. In the exotic garden staged in the museum's rotunda, a Chinese dragon dances to the beat of drums as it weaves through the crowd. The guests are serenaded by a Chinese violin as they sample an assortment of tempting bites. And to give them a memento of the occasion, there's even a photo booth. But Theodosia makes a grim discovery behind the booth's curtains: the body of museum donor Edgar Webster. While Theodosia prefers tea service over the service of justice, this case is difficult to ignore—especially after Max becomes a suspect. Now she must examine the life of the fallen philanthropist and find out who really wanted him to pay up... INCLUDES DELICIOUS RECIPES AND TEA TIME TIPS!

Sonic Agency Brandon Labelle 2020-12-08 A timely exploration of whether sound and listening can be the basis of political change. In a world dominated by the visual, could contemporary resistances be auditory? This timely and important book from Goldsmiths Press highlights sound's invisible, disruptive, and affective qualities and asks whether the unseen nature of sound can support a political transformation. In *Sonic Agency*, Brandon LaBelle sets out to engage contemporary social and political crises by way of sonic thought and

imagination. He divides sound's functions into four figures of resistance—the invisible, the overheard, the itinerant, and the weak—and argues for their role in creating alternative “unlikely publics” in which to foster mutuality and dissent. He highlights existing sonic cultures and social initiatives that utilize or deploy sound and listening to address conflict, and points to their work as models for a wider movement. He considers issues of disappearance and hidden culture, nonviolence and noise, creole poetics, and networked life, aiming to unsettle traditional notions of the “space of appearance” as the condition for political action and survival. By examining the experience of listening and being heard, LaBelle illuminates a path from the fringes toward hope, citizenship, and vibrancy. In a current climate that has left many feeling they have lost their voices, it may be sound itself that restores it to them.
