A Literature Review of the Factors Influencing E-Learning and ... - ed

The findings from the research papers included in the review show that among the many factors some seem to dominate more: educator presence in online settings, interactions between

students, teachers and content, and designed connections between online and offline activities as well as between campus-related and practice-related activities. The article thus points in the ...

A Mathematical Theory of Communication - Harvard University

basis for such a theory is contained in the important papers of Nyquist¹ and Hartley² on this subject. In the present paper we will extend the theory to include a number of new factors, in particular the effect of noise in the channel, and the savings possible due to the statistical structure of the original message and due to the nature of the final destination of the ...

Student-Centered Teaching Methods - Teaching Handbook

One-minute papers (example) Given an open-ended question, students spend one minute writing their answers on index cards, which are collected by the instructor. Often given at the end of class, the questions ask students what was the most important concept they learned or what remains unclear. Almer et al. (1998); Chizmar and Ostrosky (1998); Rivard and Straw (2000) Interactive ...
