Redemption Rebecca Gober 2012-11-06 He would endure a thousand deaths for her, but would she let him? Torn between two men that love her, Emma Townsend is forced to make choices no seventeen-year-old should ever be forced to make. With her friends at her side, Emma embarks on an adventure full of danger, deceit and betrayal as she tries to redeem Kai, the man who made the ultimate sacrifice for her. When Emma discovers that setting a Night Marcher free is no easy task, she is forced to make a very unlikely alliance. How far will Emma be willing to go to save Kai, and will she be able to do so before it's too late?

Installation art and the museum Vivian van Saaze 2014-03-15 Installation art has become mainstream in artistic practices. However, acquiring and displaying such artworks implies that curators and conservators are challenged to deal with obsolete technologies, ephemeral materials and other issues concerning care and management of these artworks. By analysing three in-depth case studies, the author sheds new light on the key concepts of traditional conservation (authenticity, artists' intention, and the notion of ownership) while exploring how these concepts apply in contemporary art conservation. Based on original empirical research and cross-case analysis, this ground-breaking study offers a re-examination of traditional conservation values and ethics, and argues for a reassessment of the role of the conservator of contemporary art.

Google Earth Engine Applications Lalit Kumar 2019-04-23 In a rapidly changing world, there is an ever-increasing need to monitor the Earth's resources and manage it sustainably for future generations. Earth observation from satellites is critical to provide information required for informed and timely decision making in this regard. Satellite-based earth observation has advanced rapidly over the last 50 years, and there is a plethora of satellite sensors imaging the Earth at finer spatial and spectral resolutions as well as high temporal resolutions. The amount of data available for any single location on the Earth is now at the petabyte-scale. An ever-increasing capacity and computing power is needed to handle such large datasets. The Google Earth Engine (GEE) is a cloud-based computing platform that was established by Google to support such data processing. This facility allows for the storage, processing and analysis of spatial data using centralized high-power computing resources, allowing scientists, researchers, hobbyists and anyone else interested in such fields to mine this data and understand the changes occurring on the Earth's surface. This book presents research that applies the Google Earth Engine in mining, storing, retrieving and processing spatial data for a variety of applications that include vegetation monitoring, cropland mapping, ecosystem assessment, and gross primary productivity, among others. Datasets used range from coarse spatial resolution data, such as MODIS, to medium resolution datasets (Worldview -2), and the studies cover the entire globe at varying spatial and temporal scales.

Wind Warrior Jon Messenger 2017-04-15 Take a deep breath before you start the now complete World Aflame Series. This action adventure series filled with cinematic science fiction action, end of the world apocalyptic events, and heart pounding thrills will leave you enthralled from beginning to end. Fans of *The Maze Runner* by James Dashner and *I Am Number Four* by Pittacus Lore will love this teen fiction series. With over 400 five-star reviews on Goodreads, this is definitely the series you should read next! **Wind Warrior** is the READERS FAVORITE book award winner. When a man is miraculously saved from being hit by a bus, Xander's life turns in to the living embodiment of the tornadoes he can suddenly create with a flick of his wrist. Whether he wants this gift or not, Xander must learn to use his new 'super power' quickly if he wants to survive. **THE EARTH GIVES WAY TO THE SEA, THE SEA BOWS BEFORE THE WIND, THE WIND FEEDS THE FLAME, THE FLAME BURNS THE WORLD OF MAN DOWN TO THE EARTH.** The sleepy town of White Halls harbors a dangerous secret. On a picturesque street, two houses down from a lovely little park, in a quaint little home with a wraparound porch, lives a family that seems rather normal. Sure, their twenty-year-old son, Xander, still lives at home, but he's going to college and dating the leader of the school's top sorority. It's all very... normal. However, when a man is miraculously saved from being hit by a bus, Xander's life turns in to the living embodiment of the tornadoes he can suddenly create with a flick of his wrist. Whether he wants this gift or not, Xander must learn to use his new 'super power' quickly if he wants to survive. For his kind is a dying race, and when this sleepy town has a sudden influx of new, blonde, fire wielders, no one is safe, especially Xander. It doesn't help that one of these blondes happens to be the most beautiful girl he has ever seen. Xander can't deny the instant connection he feels to her, so when she tries to kill him, it certainly makes things complicated. **Wind Warrior** is the first book in the World Aflame series by Jon Messenger. This series is complete and ready for binge reading. Praise for **Wind Warrior**: "Yet another book to catch, "Wind Warrior" is a fascinating take on Armageddon, coming of age, self-discovery and a budding love story. And all of these elements are captured in a tale that will surely captivate young adults everywhere. Readers will surely be glued to the book until the last page, what with its non-stop sequence packed with a lot of action, topped off with a modern Romeo and Juliet romance in the background. Jon Messenger writes in a voice that youngsters will easily relate to, as the characters involved are the kind we can definitely root for, while they engage in battles and inner struggles. It is a light read, yet filled to the brim with excitement. This is a book that entertains as well as imparts a lesson or two. I highly recommend it to all readers, young and old alike." - Readers' Favorite Young adult books free Teen and Young Adult Books young adult adventure books young adult adventure fantasy young adult science fiction Visionary & Metaphysical Scary Stories Survival Stories Dystopian Books for Teen Boys young adult apocalypse fiction and adventure Boys and Men Issues Young Adult Science Fiction Action Adventure Thriller Dystopian Survival Fiction Apocalyptic Survival Stories Young Adult Supernatural Mystery Young adult books for boys Science Fiction Super powers Apocalyptic Fiction YA books for teens Urban Fantasy young adult science fiction thriller Social Family Issues Friendship

The Tobacco Atlas Judith Mackay 2002 Research in the past five years suggests a bleak picture of the health dangers of smoking, with tobacco the biggest single killer of all forms of pollution. It is estimated that one person dies every ten seconds due to smoking-related diseases. This publication considers the history and current position regarding tobacco use, as well as providing some predictions for the future of the tobacco epidemic up to the year 2050. It contains a number of full-colour world maps and graphics to illustrate the variations between countries and regions. Issues discussed include: tobacco prevalence and consumption; youth smoking; the economics of tobacco farming and manufacturing; smuggling; the tobacco industry, promotion, profits and trade; smokers' rights; legislative action such as smoke-free areas, tobacco advertising bans and health warnings.

9/11 and the Visual Culture of Disaster Thomas Stubblefield 2014-12-17 "[An] insightful view on how 9/11 is perceived in American society—the day that 'refuses to enter history,' the tragedy that 'has, in effect, not yet passed.'" —Journal of Popular Culture The day the towers fell, indelible images of plummeting rubble, fire, and falling bodies were imprinted in the memories of people around the world. Images that were caught in the media loop after the disaster and coverage of the attack, its aftermath, and the wars that followed reflected a pervasive tendency to treat these tragic events as spectacle. Though the collapse of the World Trade Center was "the most photographed disaster in history," it failed to yield a single noteworthy image of carnage. Thomas Stubblefield argues that the absence within these spectacular images is the paradox of 9/11 visual culture, which foregrounds the visual experience as it obscures the event in absence, erasure, and invisibility. From the spectral presence of the Tribute in Light to Art Spiegelman's nearly blank New Yorker cover, from the elimination of the Twin Towers from TV shows and films to the monumental cavities of Michael Arad's 9/11 memorial, the void became the visual shorthand for the incident. By examining configurations of invisibility and erasure across the media of photography, film, monuments, graphic novels, and digital representation, Stubblefield interprets the post-9/11 presence of absence as the reaffirmation of national identity that implicitly laid the groundwork for the impending invasions of Iraq and Afghanistan. "A concise, engaging, and thought-provoking work that asks the reader to reassess their knowledge and relationship to that moment and the resulting milieu of post 9/11 life in America." —ARLIS/NA Reviews "Extraordinarily brilliant . . . will change how we think about disasters and tragedies. The book is a must-read for both students and practitioners of media studies." —Repository

He Knows Her Name Kelly McCorkle Parkison 2016-05-03 There are an estimated 20 million orphans in the country of India. Thanks to Kelly and Scott Parkison, that number has decreased by one. Having promised to never return to India after her experience on the reality show *The Amazing Race*, Kelly never dreamed she would one day be a mother to a beautiful Indian girl named Lyla. This is the amazing and true story of how God uses the most unlikely circumstances for His greater purpose. Calling the Parkison's adoption story a rollercoaster ride of emotion would be an understatement. After almost every major decision in the Parkison's adoption process, God put a twist in their carefully laid plans only to lead them to greater opportunities. Faced with an overwhelming amount of fundraising, mountains of adoption paperwork, an unexpected pregnancy, a medical issue to patch with their new daughter, and the adjustment of bringing their child into a new culture, the Parkisons clung to God through their whirlwind adoption of Lyla. Their heartwarming story is a beautiful testament to the gift of adoption on this earth and the love of God for all of us as His children.

Exposing ELE Rebecca Gober 2014-06-06 "I honestly wish I could believe that things will end perfectly, with one big bright happy ending. But these last few days have taught me that life isn't made up of shiny moments. Life is hard; it's gritty. One day you are filled with joy and the next, you are crawling through the muddy trenches with no inkling of when you might be able to climb your way back up again." -Willow Mosby, Exposing ELE Can Willow expose Project ELE for what it really is? Just when Willow Mosby thought that her life might return to normal, her parents and Tony are ruthlessly abducted, along with many other victims from the shelter. In an effort to save them, Willow has to take a stand against the darkness brought forth by the masterminds of Project ELE. In the midst of all of the chaos, Willow is faced with some impossible choices. Is Willow strong enough to make these decisions? How can she decide between the man she first loved and the man who has sworn to protect her? When certain events are set in motion, Willow finds herself caught in the center of an even darker, more diabolical scheme than she could have ever imagined. With her abilities rapidly growing, Willow finds herself more powerful than ever before. What she hadn't realized is that someone else has noticed her power, and they will stop at nothing to get it. The Conduit Stacey Rourke 2012-03-01 All 18-year-old Celeste Garrett wants is to head off to college and make those fun, yet ill-advised, choices college kids are known for. And maybe to spend some time with the hot cameraman she just met. Instead, because of a pact her ancestors made in the 17th century with a mythical creature, she has to save the world. While normal kids are slamming energy drinks and cramming for exams, Celeste will get her adrenaline rush fighting a fire breathing dragon. She wants to meet friends in the quad to exchange lecture notes, but first she must exchange blows with a shapeshifting demon on the rooftop. Life isn't always fair for a superhero, but at least she doesn't have to do it alone. With her brother and sister as sidekicks, they alternate between saving lives and getting on each others' nerves. Together the trio encounters unspeakable odds, mystical forces and comes face-to-face with an image that will haunt them forever—their grandmother in a leopard print bikini. Okay, little side note here. If a psychopathic killer asks if you want to see a trick, say no. That's the smart thing to do. I, on the other hand, responded, "Bring it." -excerpt from THE CONDUIT

Scientific Foundations of Zoos and Aquariums Allison B. Kaufman 2019-01-03 In the modern era, zoos and aquariums fight species extinction, educate communities, and advance learning of animal behaviour. This book features first person stories and scientific reviews to explore ground breaking projects run by these institutions. Large-scale conservation initiatives that benefit multiple species are detailed in the first section, including critical habitat protection, evidence-based techniques to grow animal populations and the design of community education projects. The second section documents how zoos use science to improve the health and welfare of animals in captivity and make difficult management decisions. The section on saving species includes personal tales of efforts to preserve wild populations through rehabilitation, captive breeding, reintroduction, and public outreach. The concluding section details scientific discoveries about animals that would have been impossible without the support of zoos and aquariums. The book is for animal scientists, zoo professionals, educators and researchers worldwide, as well as students of zookeeping and conservation.

Beyond New Media Art Domenico Quaranta 2014-08-12 "Beyond New Media Art" is the revised, updated version of a book first published in Italian with the title "Media, New Media, Postmedia" in 2010. Through the circulation of excerpts, reviews and interviews, the book produced some debate outside of Italy, which persuaded the author to release, three years later, this English translation. "Beyond New Media Art" is an attempt to analyze the current positioning of so-called New Media Art in the wider field of contemporary arts, and to explore the historical, sociological and conceptual reasons for its marginal position and under-recognition in recent art history. On the other hand, this book is also an attempt to suggest new critical and curatorial strategies to turn this marginalization into a thing of the past, and to stress the topicality of art addressing the media and the issues of the information age. Domenico Quaranta is an art critic, teacher and curator. He regularly writes for Flash Art and Artpulse.

Concealed in the Shadows Gabrielle Arrowsmith 2013-05-17 Sydney Harter has long awaited September 12th, 2033—her eighteenth birthday. She can finally apply for guardianship of her sister, who is her only family and entire world. She hopes they will be lawfully reunited, but is prepared to defy authority and risk everything to escape the captivity of Miles County so that they can be together. Escaping will be difficult and dangerous. Citizens are bound to their county by sophisticated chip implants that deliver shocks to those who dare to cross the electric barrier. Sydney is very clever, but her trickery is limited against the all-seeing eyes of technology. Even if they were to survive the escape, disappearing into the forgotten forests and towns of the past seems an impossible task. What Sydney doesn't know is that she is the particular interest of two opposing forces. With deceit, fear, and warfare surrounding her—can she trust the party that aims to help with her fight against the other? Can she open her heart to receive and return unexpected love? When her sister's life becomes jeopardized, Sydney will have to weigh a new love against the only enduring love she has known. The cost could be deadly... How will she choose?
