The Immortal Rules Julie Kagawa 2017-01-16 These vampires don't sparkle...they bite. Book 1 of the Blood of Eden trilogy by Julie Kagawa, New York Times bestselling author of The Iron Fey, begins a thrilling dark fantasy series where vampires rule, humans are prey...and one girl will become what she hates most to save all she loves. Allison Sekemoto survives in the Fringe of the vampires who killed her mother rule and she and her crew of outcasts must hide from the monsters at night. All that drives Allie is her hatred of vampires, who keep humans as prey. Until the night Allie herself dies...a becomes one of the monsters. When she hears of a mythical place called Eden that might have a cure for the blood disease that killed off most of civilization, Allie decides to seek it out. Hiding among a band of humans, she begins a journey that will have unforeseen consequences...to her, the boy she's falling for who believes she's human, and to the future of the world. Now Allie must decide what—and who—is dying for...again. "A fresh and imaginative thrill ride." —Publishers Weekly, starred review Books in the Blood of Eden series: The Immortal Rules The Eternity Cure The Forever Song

PC World 2007

Product-Led Growth Wes Bush 2019-05 Can your software sell itself? Convention and the trillion-dollar sales industry claim that it's impossible for your product to sell itself. Yet successful software businesses like Slack, Dropbox, Atlassian, and HubSpot have millions selling to customers who never once reached out to a sales rep. In *Product-Led Growth: How to Build a Product That Sells Itself*, growth consultant Wes Bush challenges the traditional SaaS marketing and sales playbook and introduces a completely new way to sell products. Bush reveals how your product--not expensive sales teams--can be the main vehicle to acquire, convert, and retain customers. In this step-by-step guide to Product-Led Growth, Bush explains: Why you should flip the traditional sales process on its head and turn your product into a sales machine; How to decide whether your business should use a free trial, freemium, or hybrid model; How to turn free users into happy, paying customers. History tells us that "how" you sell is just as important as "what" you sell. Blockbuster couldn't compete with Netflix by selling the same digital content, and you need to know "when" not "if" you'll innovate on the way you sell. Are you going to be product-led? Or will you be disrupted, too?

Software Matthew Symonds 2013-04-30 In a business where great risks, huge fortunes, and even bigger egos are common, Larry Ellison stands out as one of the most outspoken, driven, and daring leaders of the software industry. The company he cofounded and runs, Oracle, is the number one business software company: perhaps even more than Microsoft's, Oracle's products are essential to today's networked world. But Oracle is as controversial as it is influential, as feared as it is revered, thanks in large part to Larry Ellison. Though Oracle is one of the world's most valuable and profitable companies, Ellison is not afraid to suddenly change course and reinvent Oracle in the pursuit of new and ever more ambitious goals. *Software* examines the results of Ellison's strategy and the forces that drive Ellison relentlessly on. In *Software*, journalist Matthew Symonds gives readers an exclusive, intimate insight into both Oracle and the man who made it and runs it. As well as relating the story of Oracle's often bumpy industry dominance, Symonds deals with the private side of Ellison's life. From Ellison's troubled upbringing by adoptive parents and his lifelong search for emotional security to the challenges and opportunities that have come with unimaginable wealth, *Software* gets inside the skin of a fascinating and complicated human being. With unlimited insider access granted by Ellison himself, Symonds captures the intensity and, some would say, the recklessness that have made Ellison a legend. The result of more than a hundred hours of interviews and many months spent with Ellison, *Software* is the most complete portrait undertaken of a man and his empire -- a unique and gripping account of both the way the computing industry really works and an extraordinary life. Despite his closeness to Ellison, Matthew Symonds is a candid and at times highly critical observer. And in perhaps the book's most unusual feature, Ellison responds to Symonds's portrayal in the form of a running footnoted commentary. The result is one of the most fascinating business stories of all time.

PC Magazine 2007

Electronics Buying Guide 2008 Consumer Reports 2007-09-18 A consumer guide integrates shopping suggestions and handy user tips as it describes and rates dozens of digital electronic products, including cell phones, digital cameras, televisions, computers and home theater products.

Informationweek 2008

Plunkett's Wireless, Wi-Fi, RFID and Cellular Industry Almanac 2008. Plunkett 2007-07 The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title.

Plunkett's Renewable, Alternative & Hydrogen Energy Industry Almanac 2007. Plunkett 2007-01 There are few industry sectors in the world today with more potential than renewable and hydrogen energy. Clean, green and renewable energy technologies are receiving immense emphasis from investors, environmentalists, governments and major corporations. Today's high prices for crude oil, coal and natural gas will increase the demand for renewables of all types. A wide variety of technologies are being researched, developed and implemented on a global basis, from Stirling engines to wind power, from advanced nuclear plants to geothermal and fuel cells. Our analysis also includes tar sands (oil sands), oil shale, fuel cells, clean coal, distributed power, energy storage, biofuels and much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. This book also includes statistical tables, an industry glossary and thorough indexes. The corporate profiles section of the book includes our proprietary, in-depth profiles of the 250 leading companies in all facets of alternative, renewable and hydrogen energy business. Here you'll find complete profiles of the hot companies that are making news today, the largest, most successful corporations in the business. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.
