The Uninhabitable Earth David Wallace-Wells 2019-02-19 \*\*SUNDAY TIMES AND THE NEW YORK TIMES BESTSELLER\*\* 'An epoch-defining book' Matt Haig 'If you read just one work of non-fiction this year, it should probably be this' David Sexton, Evening Standard Selected as a Book of the Year 2019 by the Sunday Times, Spectator and New Statesman A Waterstones Paperback of the Year and shortlisted for the Foyles Book of the Year 2019 Longlisted for the PEN / E.O. Wilson Literary Science Writing Award It is worse, much worse, than you think. The slowness of climate change is a fairy tale, perhaps as pernicious as the one that says it isn't happening at all, and if your anxiety about it is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible, even within the lifetime of a teenager today. Over the past decades, the term "Anthropocene" has climbed into the popular imagination - a name given to the geologic era we live in now, one defined by human intervention in the life of the planet. But however sanguine you might be about the proposition that we have ravaged the natural world, which we surely have, it is another thing entirely to consider the possibility that we have only provoked it, engineering first in ignorance and then in denial a climate system that will now go to war with us for many centuries, perhaps until it destroys us. In the meantime, it will remake us, transforming every aspect of the way we live-the planet no longer nurturing a dream of abundance, but a living nightmare.

The Midnight House Alex Berenson 2010-11-30 When members of a secret American interrogation squad that was running a black site in Poland in 2007 and 2008 and had since been disbanded are murdered, John Wells is asked to investigate. The Deceivers Alex Berenson 2019-02-05 THE NEW YORK TIMES BESTSELLER Interfering with the presidential election was just the first step. The Russians don't just want to influence American elections--they want it all. Former CIA agent John Wells confronts a plot of astonishing audacity as New York Times-bestselling author Alex Berenson goes beyond today's headlines to tomorrow's all-too-real threats. It was supposed to be a terrorist sting. The guns were supposed to be disabled. Then why was there so much blood? The target was the American Airlines Center, the home of the Dallas Mavericks. The FBI had told Ahmed Shakir that his drug bust would go away if he helped them, and they'd supply all the weaponry, carefully removing the firing pins before the main event. It never occurred to Ahmed to doubt them, until it was too late. When John Wells is called to Washington, he's sure it's to investigate the carnage in Dallas, but it isn't. The former CIA director, now president, Vinnie Duto has plenty of people working in Texas. He wants Wells to go to Colombia. An old asset there has information to share--and it will lead Wells to the deadliest mission of his life, an extraordinary confluence of sleeper cells, sniper teams, false flag operations, double agents high in the U.S. government--and a Russian plot to take over the government itself. If it succeeds, what happened in Texas will be only a prelude.

Public Relations Edward L. Bernays 2013-07-29 Public relations as described in this volume is, among other things, society ' s solution to problems of maladjustment that plague an overcomplex world. All of us, individuals or organizations, depend for survival and growth on adjustment to our publics. Publicist Edward L. Bernays offers here the kind of advice individuals and a variety of organizations sought from him on a professional basis during more than four decades. With such knowledge, every intelligent person can carry on his or her activities more effectively. This book provides know-why as well know-how. Bernays explains the underlying philosophy of public relations and the PR methods and practices to be applied in specific cases. He presents broad approaches and solutions as they were successfully carried out in his long professional career. Public relations is not publicity, press agency, promotion, advertising, or a bag of tricks, but a continuing process of social integration. It is a field of adjusting private and public interest. Everyone engaged in any public activity, and every student of human behavior and society, will find in this book a challenge and opportunity to further both the public interest and their own interest.

Unreported Truths about Covid-19 and Lockdowns Alex Berenson 2020-08-03 From former New York Times reporter Alex Berenson, the second installment in the best-selling series that offers hard data about the coronavirus epidemic - rather than hysterical predictions of doom. While Unreported Truths Part 1 focused on how many people are dying from COVID-19, this section discusses an equally important but even more complex topic: the history of lockdowns, and the evidence that they work as intended. Like Part 1, this section draws on primary sources like Centers for Disease Control and World Health Organization reports, along with news articles, government documents, and scientific papers. In three chapters, this section explains the surprising scientific debate around lockdowns BEFORE March, along with the evidence that they did or did not work as intended to reduce the spread of the coronavirus and save lives. If you have been wondering whether lockdowns made any difference - as the media has loudly insisted - Part 2 will give you the truthful, accurate and well-sourced information you need to make up your own mind. Please note: This booklet contains only the second section of Unreported Truths. Part 1 is available separately.

The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

Tell Your Children Alex Berenson 2020-02-18 In "a brilliant antidote to all the...false narratives about pot" (*American Thinker*), an award-winning author and former New York Times reporter reveals the link between teenage marijuana use and mental illness, and a hidden epidemic of violence caused by the drug—facts the media have ignored as the United States rushes to legalize cannabis. Recreational marijuana is now legal in nine states. Advocates argue cannabis can help everyone from veterans to cancer sufferers. But legalization has been built on myths—that marijuana arrests fill prisons; that most doctors want to use cannabis as medicine; that it can somehow stem the opiate epidemic; that it is beneficial for mental health. In this meticulously reported book, Alex Berenson, a former New York Times reporter, explodes those myths, explaining that almost no one is in prison for marijuana; a tiny fraction of doctors write most authorizations for medical marijuana, mostly for people who have already used; and marijuana use is linked to opiate and cocaine use. Most of all, THC—the chemical in marijuana responsible for the drug's high—can cause psychotic episodes. "Alex Berenson has a reporter's tenacity, a novelist's imagination, and an outsider's knack for asking intemperate questions" (*Malcolm Gladwell, The New Yorker*), as he ranges from the London institute that is home to the scientists who helped prove the cannabis-psychosis link to the Colorado prison where a man now serves a thirty-year sentence after eating a THC-laced candy bar and killing his wife. He sticks to the facts, and they are devastating. With the US already gripped by one drug epidemic, *Tell Your Children* is a "well-written treatise" (*Publishers Weekly*) that "takes a sledgehammer to the promised benefits of marijuana legalization, and cannabis enthusiasts are not going to like it one bit" (*Mother Jones*).

But the two of them are swimming against the tide.
